The 1997 AWB Voting Record

*“AWB’s Voting Record is our scorecard.
It gives our members a measure of what issues are
important to business and how legislators voted on them.”*

*—Don Brunell
AWB President*

The AWB Voting Record

Voting records cannot tell the entire story of a legislator’s attitude or whether the final vote on an issue accurately reflects that legislator’s position throughout the debate. However, the *AWB Voting Record* is designed to be a representative sample of votes taken during the 1997 session on important business issues.

How the issues were chosen

The issues included in this voting record were selected by AWB members in a thorough and extensive process. First, a 24-member Voting Record Task Force reviewed the selection criteria and developed an initial list of issues. The proposed list and suggested format were then reviewed and approved by more than 80 members of AWB’s Governmental Affairs Council. The final report was then reviewed by AWB’s Executive Committee prior to publication.

The 1997 legislative session

Overall, the 1997 legislative session was a good one for AWB members. While the session was marked by a record number of vetoes by Gov. Locke, he and the legislature reached agreement on a budget without a special session for the first time in recent memory. In addition, Gov. Locke resisted intense pressure from Democrat activists and legislators and signed the intangibles tax exemption and most of the Environmental Excellence bill.

That said, Gov. Locke’s vetoes targeted many of AWB’s key priorities, including regulatory reform, retro reform and health care. For that reason, this year’s *Voting Record* highlights the Governor’s actions on each bill passed by the legislature.

Check the record

AWB believes the votes included in the *1997 Voting Record* are a fair representation of a legislator’s tendency to support or oppose the position AWB members took on business issues. We urge you to carefully review how your legislators voted on an issue-by-issue basis, as well as by their composite percentage.
